

International Program

CRICOS Provider Name: Department of Education, Training and the Arts
Trading Name: Education Queensland International CRICOS Code 00608A

Ferny Grove State High School has only recently been admitted to the Education Queensland International Student Program.

Our school has for many years been involved in sister school relationships with schools in Germany and has recently developed a new sister school relationship with a school in Central Java. We also have a long history of successfully hosting visits from exchange students from around the world to study at our school.

In semester 2, 2008, we welcomed our first students through the Queensland International Student Program.

We offer students an opportunity to:

- Extend their education across academic, cultural, sporting and citizenship spheres.
- Engage in a wide range of extra and co-curricular activities which will provide life balance and add to personal development as a global citizen.
- Extend their knowledge of English and the Australian culture.

Our school motto is "Always Aim High". We live by our motto and strive to provide an educational experience of an extremely high standard.
