

# Principal's Welcome

From the Principal

Welcome to Ferry Grove State High School. Our school is a vibrant and exciting place where all our students are encouraged to "always aim high". Students are provided with opportunities to achieve their personal best across the areas of academic, sporting, cultural and citizenship development. We have a clear vision with strong values which are embedded in all aspects of our learnings. We seek to provide a supportive environment where students, staff and parents respect the roles that each contributes to the development of tomorrow's leaders.

Our diverse curriculum is designed to provide opportunities for all students to pursue their interests and gain a strong foundation for further study or preparedness for the world of work. There is a focus on the integration of information technology across the curriculum. Resources are maintained to maximise these opportunities. The school is recognised for offering distinctive opportunities in Languages study, Agricultural Science, Technology, Instrumental and vocal Music and Sports. Extension opportunities are provided for students across all curriculum areas as well as through an extensive range of co-curricular activities.

We are fortunate in that we have a highly qualified and experienced teaching staff who work conscientiously with students to achieve their best. Student results are consistently of a high standard. Partnerships exist with Universities, Technical and Further Education Institutions and Employers which maximise the opportunities available for our students. Our relationship with our local community is important and opportunities to be involved with our community are valued.

I trust that you enjoy reading about our great school and the diversity of opportunities available to all the students of Ferry Grove State High School.

Kind regards

Kaye Gardner  
Executive Principal
