

**Ferny Grove SHS Science  
Department  
Agricultural Science - Year 10**

Year 10 Agricultural Science students (and parents) below is the lesson sequence for Term 2 this year. **This needs to be used in conjunction with One Note, Education Perfect, and STILE.**

Your teacher will add lesson notes, handouts and information for you each week.

**Please check your emails regularly and email your teacher if you have questions or concerns.**

**MORRIS, Suzanne (smorr337) [smorr337@eq.edu.au](mailto:smorr337@eq.edu.au)**

Week	Lesson 1	Lesson 2	Lesson 3
1	Review of plant systems Education Perfect lesson	Review of plant systems Education Perfect lesson	Sunflower measurements and data entry into Excel
2	Plant cells STILE lesson	Importance of plant science OneNote	Sunflower measurements and data entry into Excel Research for experimental report
3	Labour Day public holiday	The seed	Sunflower measurements and data entry into Excel Research for experimental report
4	The flower	The leaves	Sunflower measurements and data entry into Excel Research for experimental report
5	The roots The stem	Written assessment prep	Written assessment prep
6	Draft assessment due	Written assessment prep	Written assessment prep
7	Final assessment due	Understanding plant growth regulators	Understanding properties of growing media
8	Factors influencing production	Industry case study – cotton	Industry case study – canola
9	Industry case study – pastures	Crops and Yield Education Perfect lesson	Challenges to Food Security Education Perfect lesson
10	Sustainability and Food Production Education Perfect lesson		Farm closeout
